Tells of Quarrel That Preceded  
Death of Emmett C. Erwin in  
Rooming House Here

### INVESTIGATION STARTED

Mrs. Fada Fosnaugh, Held in  
Jail, Says Man Was Placed  
in His Room

### BULLETIN

Upper Sandusky, Feb. 29.—John  
Fosnaugh and Fred Ames have  
been confined to entering the J. H.  
Nitrauer home, north of Marion,  
several weeks ago, and stealing a  
sum of money, an automobile and  
slaying Mrs. Nitrauer, according  
to a statement made today by  
Sheriff Stansbury, of Wyandot  
County.

According to the story told of-  
ficers Fosnaugh and Ames entered  
the Nitrauer home and drove away  
in the stolen automobile. Later  
they picked up Arthur Mills in  
Marion. Mills drove the pair back  
to their home near Morral and  
was instructed to return the car  
to Marion and abandon it on the  
streets.

Instead of leaving the car in  
Marion Mills picked up three other  
persons, Chester Townsend, 604  
Miami, Milford Daley, 167 Her-  
man, and Herbert Hochstetler,  
501 Scranton-av. The four then  
drove to Delaware, robbing a  
roadside fruit stand enroute.  
They were arrested in Delaware  
and were taken to the Wyandot  
County Jail at Upper Sandusky,  
where they have since been held.

Fosnaugh, Ames, and Mrs. Fos-  
naugh all of whom have been in-  
dicted by the Wyandot County  
Grand jury for complicity in the  
Nitrauer robbery will appear in  
Common Pleas Court of Wyandot  
County Thursday morning. Ames  
and Fosnaugh are expected to  
plead guilty.

Confronted with the story of a  
woman held in the Wyandot County  
Jail who told of a fight between the  
victim and a companion, local officials  
today reopened their investigation into  
the mysterious death of Emmett C.  
Erwin, 23, who succumbed in Marion  
City Hospital Jan. 7.

At an inquest conducted by Coroner  
R. D. Osborn, Waite, the day follow-  
ing the man's death, the verdict was  
that his death resulted from pneumonia  
superinduced by gas poisoning.

At the time the inquest was held,  
Prosecutor Frank Wiedemann stated to-  
day, it was noticed that the man had  
a bump on the side of the head about  
the right ear. Belief was expressed  
that he had sustained the injury in a  
fall at his rooming house at 601 W.  
Center-st., where he was found in an  
unconscious condition on Jan. 7.

### Question Woman

Called to Upper Sandusky yesterday  
by the Wyandot County Sheriff, Prose-  
cutor Wiedemann, Police Chief James  
W. Thompson and Police Captain Ira  
Shrock, questioned Mrs. Fada Fosnaugh,  
whose story reopened the investigation.

Mrs. Fosnaugh, who is held in con-  
nection with the robbery of the J. N.  
Nitrauer home, near Brush Ridge, sev-  
eral weeks ago, told officials today  
two days prior to the time Erwin was  
found in an unconscious state in his rooming  
house on W. Center-st. he had engaged  
in a fight with Fred Ames at the Fos-  
naugh residence in Wyandot County.

The fight started in the Fosnaugh  
home following the man's return from a  
hunting trip, Mrs. Fosnaugh said. After  
leaving the house, Mrs. Fosnaugh  
stated, Ames, who also is held in con-  
nection with the Nitrauer robbery,  
struck Erwin over the head with a  
double-barreled shotgun, the force of  
the blow rendering the man un-  
conscious.

Erwin remained in an unconscious  
state that night. The following morning  
he had sufficiently recovered to re-  
turn to Marion. The day following his  
return here he was found in his room  
by Mrs. D. F. Snyder, his landlady.

### Dentist He Hit Erwin

When questioned yesterday, Ames is  
said to have admitted being intoxicated  
on the day mentioned by Mrs. Fos-  
naugh but denied that he struck Erwin.  
The shot gun, Mrs. Fosnaugh was broken  
when Erwin struck at a tree.

Mrs. Fosnaugh, according to the lo-  
cal officers, revealed information con-  
cerning a number of robberies that  
have been committed in Marion within  
recent months. She told the Erwin  
story, she says, because Ames, a former  
boarder at the Fosnaugh home, is  
attempting to implicate her and her  
husband, John Fosnaugh, in the Nitrauer  
robbery.

### TAKES 79 YEARS

But George Henry Keyes Finally Be-  
comes American Citizen

FOND DU LAC, Wis., Feb. 28.—  
It took George Henry Keyes, a  
native of Ireland 79 years to  
make up his mind to become a  
citizen of the United States.  
Keyes, who is now 86 years old,  
came to this country 79 years ago.  
He served with the Union Army  
during the Civil War. Today he  
is proudly displaying his citizen-  
ship papers, which he received  
with eight other "foreigners" yester-  
day.

## MINE FEUD IS FEARED AS TWO MEN ARE SLAIN

Pittston, Pa., Mayor Calls on  
Lewis To Come and Take  
Charge of Situation

Wilkes-Barre, Pa., Feb. 29.—Charging  
that "a murder machine, controlled by  
Fascist murderers acting for operators  
and contractors" is responsible for a  
series of murders in Pittston claimed  
last night by the double slaying of  
Alex Campbell and Pete Soudargus,  
the "save the union" committee of the  
United Mine Workers in a statement  
today called upon the region to avenge  
the murders by defeating these  
bloody reactionists.

With the entire region fear-stricken  
last night's murders lead to further  
reprisals and more deaths, the commit-  
tee threw itself into the controversy,  
which has resulted in the deaths of  
four leaders in recent weeks.

### Is Wing of Union

"Avenge" Campbell, Soudargus,  
Thomas Ellis and Sam Greer (all vic-  
tims of gunners) by defeating these  
bloody reactionists, freeing Sam Bonita  
and building the United Mine Workers  
into an unbeatable weapon," the state-  
ment continued. Bonita is held on a  
murder charge in the death of Frank  
Agati, leader of another wing of the  
union forces.

"No one will now deny there exists  
a conspiracy to murder all leaders of  
those opposed to the contractors, ma-  
chine and exterminate all miners who  
dare challenge the bloody rule of op-  
erators and contractors," the statement  
read.

The "save the union" committee is  
a wing of the union which had been  
opposed to the Agati-Campbell group.  
Bonita was alleged to have killed  
Agati while they were in conference  
over a dispute in a Pittston local of  
the union. A large fund is being raised  
to defend Bonita, who goes on trial  
next month.

The committee called a series of mass  
meetings, to be held in Wilkes-Barre,

## TEACHERS REVIVE BOSTON TEA PARTY

Hundred Women with Feathers  
and Tomahawks Swoop  
Down on Wharf

Boston, Mass., Feb. 29.—Tea, King  
George, and Chicago held the center of  
interest today at the annual conven-  
tion of 15,000 delegates of the Na-  
tional Education Association.

Long before the break of dawn, a  
hundred women teachers with  
feathers and tomahawks of Indians  
swooped down on old T. Wharf, nearly  
frighting the night watchman to death  
and re-enacted the famous tea party  
of Revolutionary history by throwing lit-  
tle sacks of tea into the harbor.

The warping "Female Indians"  
traveled in taxicabs. The leader was  
Miss Elizabeth Tall, assistant superin-  
tendent of schools of Minneapolis, who  
originated the idea.

Shouts of "no taxation without rep-  
resentation" floating across the harbor in  
the cold wind caused sleep-deprived  
passengers aboard the ferries to wonder  
what it was all about.

A short time before, William Mc-  
Andrew made his first appearance at  
an educational gathering since he was  
ousted as superintendent of Chicago  
schools by Mayor William Hale Thomp-  
son in a row over history text books.  
At the conclusion of a great ovation, he  
said: "I appreciate your sympathy,  
but I appreciate more than all else your  
condemnation of the political treatment  
of a school system."

### DRUGS ALARM

Treasury Officials Say Smuggling of  
"Dope" Must Be Halted

Washington, Feb. 29.—Turning to a  
new campaign to stop narcotic smug-  
gling, Treasury Department officials  
declared that unless illegal importation  
of opium, morphine and cocaine into  
the United States can be checked it  
will be impossible to wipe out the drug  
habit.

Col. L. G. Nutt, head of the narcotic  
unit, said that a survey by the U. S.  
Public Health Service disclosed 100,  
000 drug addicts in this country, who  
annually are consuming about 420,000  
ounces of habit-forming doses.

### COMPROMISE BILL PLACES EXPENSE ON GOVERNMENT

Washington, Feb. 29.—A new com-  
promise flood relief bill, placing the  
burden of relief costs on the federal  
government, was approved today by the  
Senate Commerce Committee after  
months of study.

The bill would appropriate \$25,  
000,000 to pay for construction, ad-  
justment loans and the federal share of  
the Mississippi valley.

## COL. LINDBERGH ALTERS ROUTE, FOOLS CROWD

State Legislators Await in  
Vain at Albany Field for  
"Lone Eagle"

### LANDS AT SCHENECTADY

New York State Capitol Gaily  
Decorated for Visit  
of Flier

Schenectady, N. Y., Feb. 29.—Col.  
Charles A. Lindbergh, who hoped off  
from Curtiss Field at 10:12 o'clock for  
Albany, where he is to speak this af-  
ternoon on aviation measures before the  
New York State Legislature, landed at  
the local flying field at 11:55 o'clock.

This arrival here was entirely unex-  
pected. It is believed he chose the  
local landing field so as to avoid a  
crowd of several hundred persons who  
were waiting for him at the Albany  
field.

Despite the fact that the "Lone  
Eagle's" plane was without a tail skid  
and had a damaged rudder due to an  
accident in taking off from the Long Is-  
land field, he made a perfect landing  
at the local field.

### Anxiety Felt

Some anxiety had been felt at Al-  
bany when nearly two hours had  
passed without the arrival of Colonel  
Lindbergh. He was scheduled to make  
the New York-Albany hop in the state  
legislature was waiting at the Albany  
landing field to welcome the famous  
flier when word was flashed from this  
city that he had landed here. He will  
go to the capital at Albany by motor.

Between 50 and 75 state troopers,  
as well as a score of local police were  
stationed at the Albany airport to keep  
the crowd back. With upwards of a  
hundred Albanians, the police left the  
field disappointed when word was re-  
ceived that Colonel Lindbergh had  
landed in Schenectady.

Colonel Lindbergh is reported to  
have flown through a blinding snow-  
storm on his trip up the Hudson. Just  
before reaching Albany he turned his  
Ryan Brougham plane west and called  
away to Schenectady, leaving the re-  
ception committee of lawmakers on the  
anxious seat for more than a half hour.

Colonel Lindbergh took off Curtiss  
Field at 10:12 o'clock this morning,  
with four of his business associates, for  
Albany, to attend the aviation session  
of the state legislature.

The Lindbergh plane was preceded  
by a transport plane piloted by Lester  
Midland, and carrying Assistant Sec-  
retary of War for Aviation F. Hubne  
Davidson and Major Charles G. Traub  
of Syracuse, which took off at 9:45  
from Mitchell Field.

All the fliers are to attend the  
Albany session, which is being held in  
interest of aviation legislation, and  
which Colonel Lindbergh will address.

ceiver Makes Report

from John A. Keller, receiver of the corporation.

and "assets" are listed in the receiver's  
report, according to Keller.

winding up for the company recently,  
when it was learned that plans to re-  
build the concern were going forward.

More than 2,000 persons, in various  
parts of Ohio will lose various amounts  
of the company's failure, according to  
present indications.

## BREEZE SLOWS SPEED OF SHIP

Wireless Reports from Dirigible  
Los Angeles Indicate Fair  
Weather

Washington, Feb. 29.—Nosing her  
way slowly through a stiff head  
breeze, the giant Navy dirigible Los  
Angeles continued her northward flight  
from the Panama Canal today without  
incident.

Wireless advices from Commander  
Hosendahl at 6 o'clock this morning lo-  
cated the Los Angeles just off South  
Negrit Point, the extreme western  
tip of Australia, with weather fair and  
all well aboard.

Navigation experts were gratified by  
the progress of the huge craft on her  
northward flight, which was expected  
to be considerably slower and more dif-  
ficult than this morning's report in-  
dicated. South Negrit Point is but 140  
miles south of Guayaquil Bay, Cuba,  
where the tender Patoka is wait-  
ing with her mooring mast ready to  
drag the dirigible back to her Lake-  
hurst, N. J., base should her gas sup-  
ply be exhausted or the northern  
weather unfavorable.

When she left France Field, Canal  
Zone, yesterday morning at 10:15, the  
Los Angeles was not expected to reach  
Cuba until late this afternoon. Aver-  
aging about 40 miles an hour through-  
out the night, however, she clipped at  
least three hours from the original  
schedule.

## Ex-Kaiser's Sister Will Divorce Youthful Husband, Berlin Paper Discloses

Estrangement Said To Have Been Brought About by Extrava-  
gances of Zoubkoff and His Conduct in  
Recent Dance Hall

Berlin, Feb. 29.—Princess Victoria  
Zu Schaumburg-Lippe, 62-year-old sis-  
ter of the former Kaiser, is planning to  
divorce her 27-year-old husband, Alex-  
ander Zoubkoff, a Russian emigre, ac-  
cording to a report printed by the news-  
paper Zeitung Am Mittag today.

According to the newspaper, an  
estrangement was brought about by the  
young husband's extravagance and his  
conduct in recent cafe and dance hall  
affairs.

The couple is reported to be in finan-  
cial difficulties. Both tried in vain to  
raise 300,000 marks to finance a trans-  
atlantic flight, for which Zoubkoff was  
understood to be designing a new air-  
plane.

### Guardian Considered

Although Princess Victoria owns con-  
siderable of a private fortune in Jew-  
elry and has an income of 50,000 marks  
monthly relatives are said to be con-  
sidering the possibility of her being  
placed in a guardianship.

Friends of the princess were not sur-  
prised by the newspaper report. They  
said that the princess was both dis-  
appointed and embarrassed by her hus-  
band's conduct.

Princess Victoria and Zoubkoff were  
married last November, the civil cere-  
mony taking place Nov. 18 at the city  
hall in Bonn and the religious ceremony  
two days later.

The marriage was opposed by the ex-  
-kaiser and other members of the Hohenz-  
ollern family, but the princess declared  
it was a real love match and the pre-  
dicted years of happiness.

Confinement in Family  
A short time after the marriage Zoub-  
koff was injured in a motorcycle acci-  
dent near Bonn and within a few weeks  
there were reports of growing coolness  
in the Zoubkoff household. Affairs  
reached a climax a week ago when  
Zoubkoff was arrested following a  
brawl in a Berlin dance hall. The  
police claimed the young Russian was  
intoxicated. He was released from cus-  
tody and taken home suffering many  
wounds of the face.

The princess and her husband moved  
to Berlin from Bonn nearly a month  
ago. Zoubkoff had planned to become  
an automobile salesman, but he gave up  
this arrangement and announced he was  
designing a transatlantic plane. He said  
his wife was anxious to be the first  
woman to fly from Europe to America.

## TOOK DOCTOR'S ADVICE—COLD GONE NEXT DAY

Many Here Find Way to End Colds Overnight at Home by Hospital Tested Method

By taking the advice of her doctor and using a method that has relieved even the most extreme hospital cases, Miss Agnes L. White, like hundreds of Marion people, found the quickest way to get rid of a stuffy cold.

Miss White, for example, had neglected her cold several days in the hope that it would clear up of its own accord. Instead, it started settling in her nose, throat and chest.

She began to feel feverish, and finally called the family physician for advice, when her mother feared pneumonia.

Relief began almost immediately when the doctor gave her double doses of Ayer's Cherry Pectoral—a concentrated mixture of wild cherry, turpentine and other ingredients used in treating even the most extreme hospital cases. She felt its comforting warmth instantly—from her nose passages deep down into her chest. In a few hours the red-

ness of her nose was gone, her nose passages began to clear and in an hour or so, the doctor reports, the cold was completely gone.

Nature, she claims, repeated daily—all over her body by the attending physician.

Doctors find that this hospital method does far more than stop coughing instantly. It penetrates and breaks up the lining of the breathing passages.

Absorbed by the system it quickly reduces phlegm, helps allay that "flicking" griping feeling and drives out the cold from the nose passages, throat and chest.

Just a few pleasant sips of Ayer's Cherry Pectoral now and you'll feel like a different person tomorrow. At all drug stores, 50c per bottle, or \$1.00 hospital size.

Don't ever underestimate the danger of a sore throat; if neglected, it may develop into something serious—as many know to their sorrow.

The same goes for a cold; pneumonia at this time of the year is your great enemy. At the first sign of cold or throat irritation, use Listerine full strength as a gargle. Keep it up systematically.

Being antiseptic, it immediately attacks the countless disease-producing bacteria in mouth and throat, and halts many an ailment before it becomes dangerous.

During winter weather, when you are usually subjected to poor air and sharp changes in temperature, it's a good idea to use Listerine every day as mouth wash and gargle.

This pleasant and easy precaution may spare you a trying and painful siege of illness. Lambert Pharmaceutical Company, St. Louis, Mo., U. S. A.

## Records Show Matrimony Much More Popular Here Quarter of Century Ago

Old Report Reveals 25 Couples Applied in Probate Court for Licenses in March, 1903, One More Than Total for Corresponding Month in 1927

Marion County residents were inclined toward matrimony to a considerably greater degree 25 years ago than they are in this modern era, according to statistics taken from official marriage records in Marion County Probate Court.

In March of 1903, 25 marriages took place in the county, one more than the total for the same month in 1927. The record also shows that the matrimonial totals for January and February of 1903 were higher than those of 1927, indicating a situation which is difficult to explain.

Population of the county at this time is at least 20,000 greater than a quarter of a century ago, so that according to all laws of averages there should be a proportionate increase in the number of couples setting sail in matrimonial bars.

### Reasons Assigned

Persons attempting to ascertain why traffic has fallen off to such a marked degree on the sea of matrimony can take their choice of guesses. The

favorite explanation seems to be found in the increased cost of living, which has driven away with the ancient theory that "two can live as cheaply as one."

At any rate, the records show that in March of 1903, 25 couples were united in matrimony, and the probability of celebrating their silver wedding anniversaries next month, provided that no other agency has not intervened in the marital knot.

### Officiating Ministers

In the list of marriage solemnizations at that time, the officiating ministers included a number who were prominent in local church circles then. Included are Rev. J. Luther Lewis of the First Baptist Church, Dr. Frank Gracich of the First Presbyterian Church, Rev. E. F. W. Southern of the Episcopal Lutheran Church, Dr. A. L. Smith of Epworth M. E. church, president of Ohio Northern University and Father Michael Mulvihill of St. Mary's Catholic Church.

## Survey Shows Marion Leads State in January Building Increase Over Last Year

Construction Work Here 800 Per Cent Greater Than During Corresponding Month in 1927; Entire State Shows Average Gain

Marion more than doubled its building activity in January 1929 over the corresponding month last year, according to a survey made by the Ohio Building Trades Association.

Of the 30 Ohio cities included in the survey, 25 showed gains, Marion leading the value list.

According to the figures, Marion's building increase was from \$25,724 in January 1927 to \$110,107, a gain of approximately 800 per cent.

Permits taken out for the new Faber, Lumber and the new Columbus, Dea, and Marion Electric Corporation terminal station were largely responsible for the record here.

While Akron, Columbus and Cleveland fell behind their records for 1927, Cleveland stepped ahead with a gain of 16 per cent.

As a state Ohio ranked fifth in the 18 states in point of reported construction volume. Cleveland rated fourth among the leading cities of the country, running close to Boston and Seattle and surpassing St. Louis, Buffalo, Indianapolis and Milwaukee.

Comparative figures for the two years listing January 1927 first and January this year last follow:

## People of Marion Will You Let Us Serve You?

Gas men are human beings — just like you. The men of your Gas Company, from the President down, are employees engaged in your service. Many people of Marion are stockholders. It is not a political but a business organization honestly, openly seeking to give a valuable service in a most satisfactory way — and to promote the growth and prosperity of Marion.

We are all vitally interested in a prompt settlement of the Gas rate because it involves civic development and employment.

Fuel is the basis of all industry. Gas is to civic development what fire is to a boiler. Gas must compete with other fuels or lose business and losing business means to the Gas Company just what it means to any business concern or to the worker who loses employment.

There has been much misunderstanding and misrepresentation about the Gas rate matter. Facts have been distorted to serve personal advantage and ambitions. The growth and prosperity of Marion have been subverted. Do you want Marion to advance? Do you want it to offer advantages competitive with other cities?

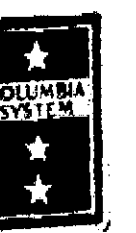

Gas rates are not so vital as the results of Gas fuel dependability and efficiency. Industry demands this and it is essential to full time employment. Any Gas rate is too high for the man out of work and broke, but a growth permitting rate sustaining business and employment is easy for all. —And politics never supplied the basis for employment.

Your Gas Company is eager to serve and proposes in all fairness a rate of \$1.00 for the first 500 cubic feet or any part thereof and 60 cents net per thousand cubic feet thereafter. Will you help settle this matter? Will you give us a chance to develop our service?

### Blame Imported Gunmen

The statement calls on authorities to release Bonita, Adam Meloni, and Steve Menella, the latter two also held in the Agate murder.

Imported gunmen were believed to have been the slayers of the two mine union officials last night. A flood of cars, without license plates, sped up to the car in which Campbell and Sularz was seated after a conference, and dumped a deadly spray of bullets into the two men's bodies with pumpkins in each body. The car was later found in Meigs, near Scranton.

The two men were killed shortly after

## SUNDAY MOVIES TO BE PRESENTED HERE

as Columbus and other cities, at about hundreds of Marion people to see entertainment places practically every Sunday.

This will be the second effort by Sharpless to organize the Sunday show program here. His first venture was in November, 1932, when he tried out the plan at the Lyricum Theatre. Local church representatives opposed to Sunday entertainment held charges against Sharpless and he was placed under arrest and bound over to the grand jury.

In December the ordinance was again passed on Sunday with the same result. The charges were ignored by the grand jury but no attempt has been made since then to operate any local theatre on Sunday.

Sharpless is preparing "Wonderline" for the last three weeks. Under the plan, which has been followed by theatres in several eastern cities for some time, the shows start a few minutes after midnight Sunday.

This program, tried out three days worked out with some decided success that it would convince Sharpless that citizens here want Sunday entertainment, he states.

## REMOVING STATION IN OAKLAND HEIGHTS

City Service Department  
Directing Work of Tearing  
Down Small Structure

Employees of the City Service Department under the direction of Service Director O. A. Benedict, started this morning to remove the C. D. & M. waiting station at the intersection of Belmont and Dayton.

Removal of the station, which was authorized by City Council, brings to a close a controversy that has been waged for more than a year between those who regarded the station as a convenience and those who regarded it as a nuisance. Attempts have been made at various times to get council to authorize removal of the building but each time enough pressure was brought to bear by residents of Oakland Heights to forestall the action.

With suspension of city streetcar service, it is believed by city officials that the building will soon cease to be of any benefit and since it served as a menace to automobile traffic at this point and was used by tramps, they believe its removal will be of considerable benefit.

The building was erected a number of years ago to serve as a waiting room.

Forest Hollenbach, driver for the Harry Bornheim Produce Co., sustained minor cuts about the head yesterday afternoon when the truck he was driving and a truck belonging to the Pandion Bakery, driven by James McKim, collided at W. Columbia and Pearl.

Both trucks were overturned and the street strewn with fruit and vegetables. According to witnesses the Bornheim truck was going east on Columbia and the bakery truck north on Pearl, both reaching the intersection at the same time and neither being able to stop. The hood of the Pandion truck was crushed in and the machine was otherwise damaged while the Bornheim truck escaped with minor damage. No blame was fixed for the accident.

## INTEREST GROWING IN BUS SERVICE

Residents Write to Star  
Expressing Views on  
Proposed Routes

Interest in the proposed routes of buses, which are to be placed in service in Marion when the Columbus, Delaware & Marion Electric Co. suspends city cars at the expiration of its franchise Oct. 5, is on the increase, according to two communications received today by The Star.

In the letters two residents urge bus operators to arrange their schedule so that the vicinity in which they live is given transportation service.

The first communication came from Mrs. J. J. McQuiston, 973 Bennett st., and the second from Miss Adeline Griffith, 122 Thompson st.

In her letter Mrs. McQuiston, speaking for her neighbors in West Marion, expresses the opinion that the bus line on Center should be extended out west to the stock yards, then south across to Bennett st., east on Bennett st. to Duval st. and south on Duval st. to Belmont.

"There are several hundred persons living in this vicinity (including many working men who would take advantage of the buses and become active in lodge and church work) who had their transportation service," Mrs. McQuiston says in closing.

"If the bus line would be extended to Kentonway it would accommodate many persons in this section of the city," Miss Griffith states in her communication. "The bus line should be extended west on Silver st. to Kentonway and then from Kentonway to the courthouse."

## BANDITS INDICTED

Man in Whose Home Part of Loot Was  
Found Is One of Three

Chicago, Feb. 28—Three alleged ring leaders in the \$125,000 Grand Trunk road robbery here last Saturday morning were under federal indictment today.

Those named in the indictments are: Charles "Lumpy" Clover, in whose home \$17,000 of the loot was recovered; William Donovan, who is said to have been the "brains" of the holdup job; and Frank Mevins, an expert on explosives who is said to have engineered the dynamiting of the "bandit proof" mail cage door.

It was reported that three other suspects, still at large, also were named in grand jury true bills. Their names were not disclosed.

## LINDY CHANGES HIS ROUTE TO ALBANY

State Legislators Await in  
Body for Former Marion County  
Resident Will Be  
Brought Here

Continued From Page One.

Lindbergh in the Ryan plane were Mr. William H. Robertson of the Curtis Robertson Co., Harlan, Ia., and Mr. St. Louis Chamberlain of the St. Louis Chamberlain Co., St. Louis, Mo., and James Wilson, Louisville, Ky., banker.

The plane had gone less than 100 miles after the take-off when the tail end snapped off, dropping the rubber to the ground. Lindbergh pulled up sharply, glanced out the side door to determine the damage, and then waved away the mechanics who had rushed up, and "gave her the gun" again.

The motor roared, the plane humped along, and with a minimum run Lindbergh lifted the damaged tail off the ground, brought the ship up at a sharp angle, banked and went soaring away. Believed to be the first time the "Lone Eagle" has ever appeared before a state legislature in behalf of legislation to speed up aviation development, government, Gov. A. Smith and the lawmakers were prepared to make the most of the occasion.

Elaborate preparations have been made to handle the crowd that is expected to be at Albany.

Capital Gaily Decorated

In many ways the capital took on the appearance of the inauguration of a governor. State troopers were on guard throughout the building, and only persons with official passes were to be admitted to the assembly chamber where Colonel Lindbergh was scheduled to address a joint session of the Senate and Assembly at 2 o'clock this afternoon.

As soon as Colonel Lindbergh flies away to Boston tomorrow, the lawmakers will play host to Ruth Elder, outcrop aviator. Miss Elder will be decorated tomorrow afternoon in the Senate chamber with the Legion of Honor of Spain, if she has sufficiently recovered from the illness which has confined her in New York.

The medal was awarded to Miss Elder several months ago by King Alfonso of Spain but it has never been formally presented.

Another hero of the war in the person of Lieut. Lester J. Maitland, transporentier, is scheduled to address the lawmakers today.

## What Doctors Think of the Laxative Habit

What do YOU do when the bowels need a little assistance? If you clear up the condition with some laxative made with CASCARETS, there is nothing better for the system—for the blood.

But if you don't KNOW the laxative you have chosen to depend on, it is a dangerous business, here's some truly reliable advice:

The task of a true valued cascara is the most necessary condition in mankind has yet found. It stimulates the bowels to regular action, but does NOT weaken a violent laxative forces the laxative HABIT. You always need more on the morning. With cascara, you don't. Its gentle influence carries on sometimes for days. With less and less need of any aid, as time goes on.

So, the very next time you feel that you take only a candy cascara. Do it lightly to the taste, sweet and acceptable to any stomach, and just as efficient as the powerful purges that merely paralyze the peristaltic walls of the intestines. The only habit you'll get from cascara is the one of good days and months without ANY help of the kind. And when you do invoke floor and again, the same small dose suffices. Any doctor can tell you about cascara, and any druggist has the candy cascara. —Adv.

## What Forests Do.

It is sincerely to be hoped that the treaty may be adjusted in some way by which the league may be enabled to save its face, but it would be next to impossible to vision Mussolini backing away from the Italian stand. He is so inflamed the Italian mind by the blarney of the saber—verbal thought it has been said that he could not back down and maintain prestige, even though he were inclined to admit to such rebuff as the league might administer, which we do not believe him to. And it is hardly probable that the league would care to go to extremes. It would add commentary on a league for world peace were it to be the first to inaugurate what might prove to be a world war, but there is a danger in a super-government to the use of force of arms. It may find it necessary to war to maintain its dignity.

We have a feeling that the pacifist chums and educators who called on President Coolidge recently overplayed their hand. They asked him to veto the \$750,000,000 reconstruction program which already has slashed to \$275,000,000 they decide man that they are afraid any naval defense, whatever, had its day to go. We feel that the president is toward a peace such as that.

A Story of Love and Adventure

BY FRANK L. PACKARD

CHAPTER 55  
It was a story of love and adventure, a story of a man and a woman who had been separated for years, and who had now found each other again. The story was told in a way that was both interesting and exciting, and it was a story that was sure to appeal to all who read it.

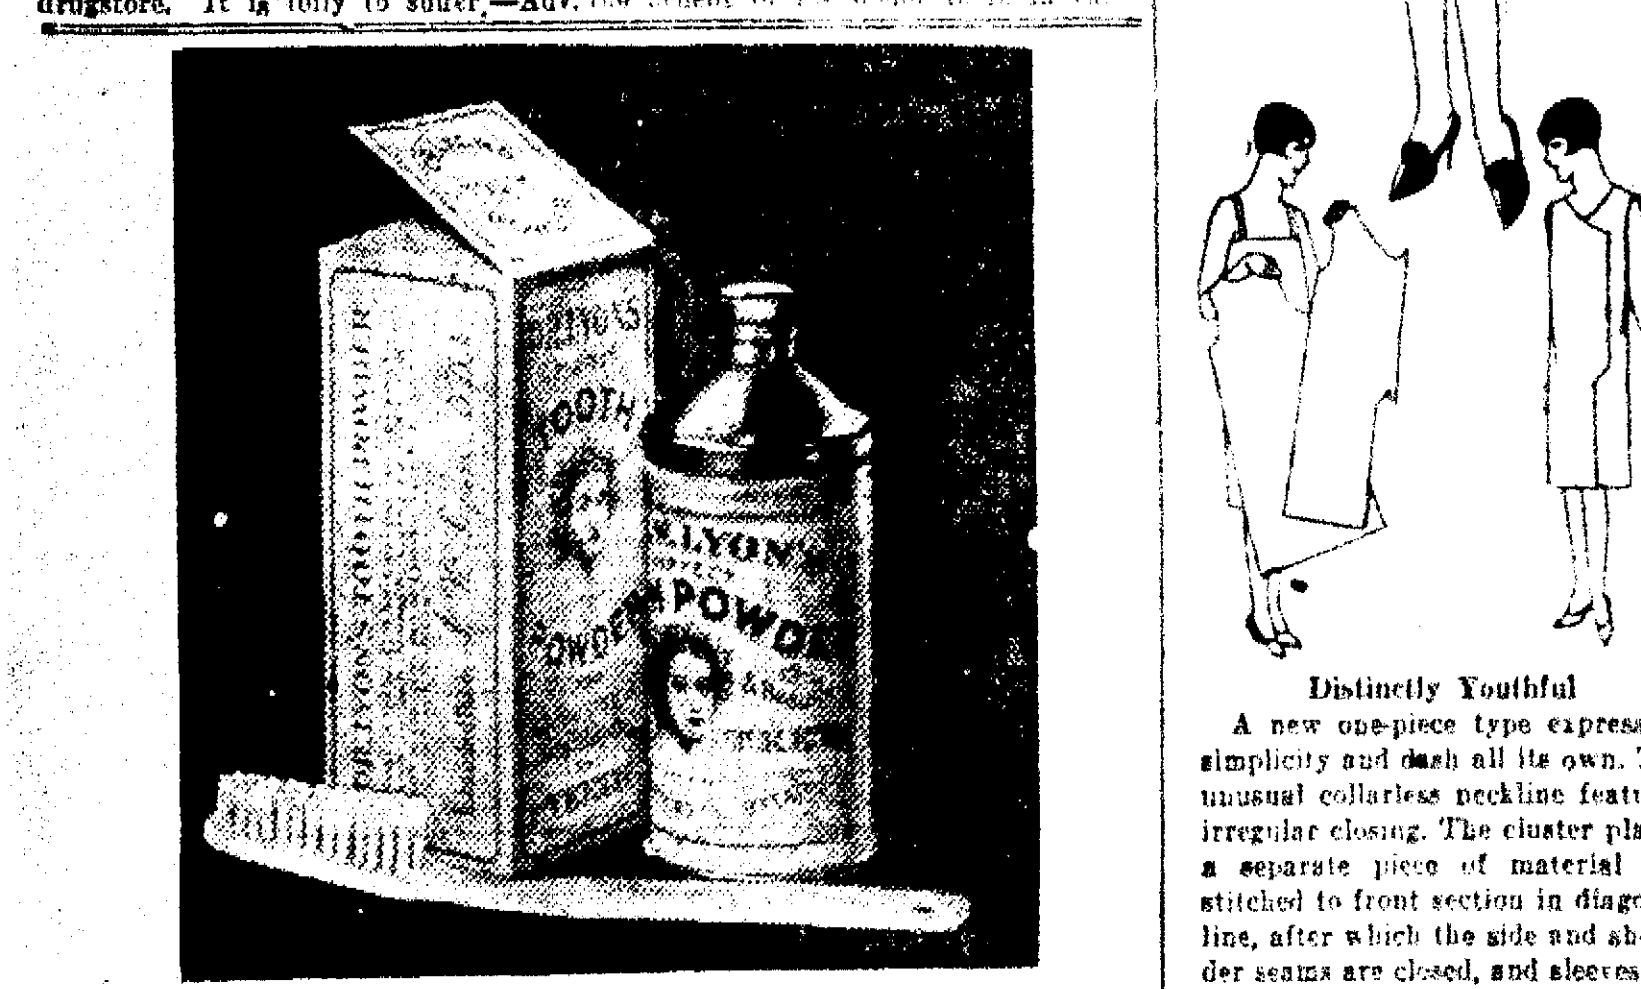

He looked at her, and she looked at him, and they both knew that they had found each other again. It had been folded and refolded over and over again until it was no more than a small pellet. It took him a moment to unfold the paper and smooth it out, and then, for his reward, in wonderment and dismay and discomfiture came upon him. It undoubtedly

## Nothing Cleans Teeth LIKE POWDER

Just ask your dentist

If you want the whitest, cleanest teeth possible, just try this; the oldest and most reliable way of all to clean teeth. For over sixty years, since 1866, dentists everywhere have prescribed Dr. Lyon's Tooth Powder because of its superior cleansing qualities. As it is only the powder part of a dentifrice that cleans, naturally a dentifrice that is ALL POWDER cleans best. That is why your dentist, when cleaning your teeth, as you know, always uses powder. Teeth simply cannot remain dull and firm coated when Dr. Lyon's is used. While it removes all the stain and tartar and actually polishes the teeth as it cleans, it cannot possibly scratch or injure the most delicate enamel, as SIXTY YEARS of constant use has shown. Dr. Lyon's has stood the test of time, as nothing else could. Thousands have found it safe, reliable, and unequaled throughout an entire lifetime of constant use. It is the only dentifrice old enough to prove it can preserve teeth for life. Dr. Lyon's Tooth Powder keeps your teeth REALLY CLEAN, and clean teeth mean firm, healthy gums and the least possible tooth decay. Its rich, cleansing properties penetrate every pit and crevice, reaching every particle of food, or foreign matter lodged therein. Thus, it leaves the mouth sweet and clean, the breath pure, and its cooling refreshing after taste is delightful. Brush your teeth twice each day with Dr. Lyon's Tooth Powder; consult your dentist regularly to be on the safe side and you will be doing the very utmost to protect your teeth. Make this test if you want whiter, cleaner and more beautiful teeth. You can get Dr. Lyon's Tooth Powder at any drugstore, or toilet goods counter. MADGE OBTAINS ASSISTANCE  
THE notes of Noel Veritten's violin were so hauntingly beautiful as they floated over our heads from the sand dunes back of us where he had gone at Lillian's request, that I almost lost myself in their loveliness, forgetting that I must make the next move in my plan to let the young violinist have his interview with Mary Harwood.

A few minutes earlier I had moved my seat to one near Lillian's young daughter, Marion, home from her first year of boarding school, and as deep and winsome a young girl as a mother's heart could desire. She has her mother's resourcefulness and wit also, so I was sure that she would give me efficient and unobtrusive aid without bothering her head as to why I asked it.

A group of Legionnaires, members of a series of units, being raised in the Legion, was a feature of the night's meeting. The Navy and Marine Corps were the contestants, the Navy coming out victorious.

It was announced that the Ladies Auxiliary of the Legion had contributed a check of \$25 as a payment on the playhouse recently installed at the Dugout and that the auxiliary

is planning to have a playhouse later. Several members of the Bird-McIntosh Post were reported, and so to Keaton tonight to attend a district Legion meeting which will be held in the Marion Hotel Home.

# Kellogg in Note Declares All War Should Be Suppressed

## MAKES REPLY TO FRANCE'S NOTE

Little Is Expected To Come of Present Effort Between Two Nations

Washington, Feb. 29.—"All war is an assault upon the stability of human society and should be suppressed in the common interest," Secretary Kellogg declared in his reply to the last French note on the Briand proposal for a treaty to outlaw war.

No informed person here expects that anything definite will come of the present effort between France and the United States, for the Kellogg proposal disregards the cardinal point of French policy—security—and is certain to be answered either by rejection or by qualifying conditions.

Again rejecting the French attempt

to limit the force of the proposed treaty to pairs of aggressors, Kellogg charged the good faith of Foreign Minister Briand and repeated the United States demand for a multilateral treaty between all the world powers for suppressing war as an instrument of national policy.

**Chides Briand**

This was the scope of the original Briand proposal of last June, intended to be effective only between the United States and France. On Jan. 8, Kellogg proposed extension of the principle to all world powers. France objected that the multilateral treaty would curtail upon her obligations as a member of the League of Nations and modified the original proposal to apply only to wars of aggression.

"Chiding Briand for a technical spirit," Kellogg again asked France to be party to "an unequivocal and unqualified renunciation of war as an instrument of national policy."

How, he asked, in effect, do the league obligations permit a two-power treaty to this effect and yet militate against a six-power pact?

**Difference of Degree**

"The difference," Kellogg declared, "seems to me to be one of degree and not of substance. A government free

to conclude such a bilateral treaty should be no less able to become party to an identical multilateral treaty."

Noting that the renunciation of war framed by the recent Pan-American Conference at Havana was accepted by 17 members of the League of Nations, Kellogg incorporated the suggestions of an ultimatum in his statement of the league's relation to the negotiations.

"If, however, members of the League of Nations cannot, without violating the terms of the covenant of the league, agree among themselves and with the United States to renounce war as an instrument of their national policy, it seems idle to discuss either bilateral or multilateral treaties, or reservedly renouncing war."

Of course they aren't really months, but they split the year into equal parts. Many national concerns are already using this system, which has worked out with even greater success than was expected.

## HOUSE INDIFFERENCE MAY DEFEAT PLANS

Preparedness Bloc in Congress Fights for Funds for Dirigibles

Washington, Feb. 29.—Despite the Los Angeles record-breaking flight to Panama, official indifference in the House today threatened defeat to the Navy's plans for developing huge dirigibles as a part of the national defense.

A preparedness bloc in congress will fight for \$8,000,000 in the pending naval supply bill for immediate construction of two new Navy dirigibles, larger than any now in use. The money was authorized two years ago but work has not been started because the House failed to appropriate the necessary funds, even though the Senate favored such action.

Two significant trends in aeronautics will feature the dirigible battle. First, the move of military strategists to transfer all control over dirigible activities to the Navy Department, and second, the abandonment of semi-rigid "blimps," such as the army now uses, in favor of the great rigid dirigibles. These developments were due to the frequent successes of the Los Angeles on military mission and a decision, among experts, that the small "blimps" had little or no military value.

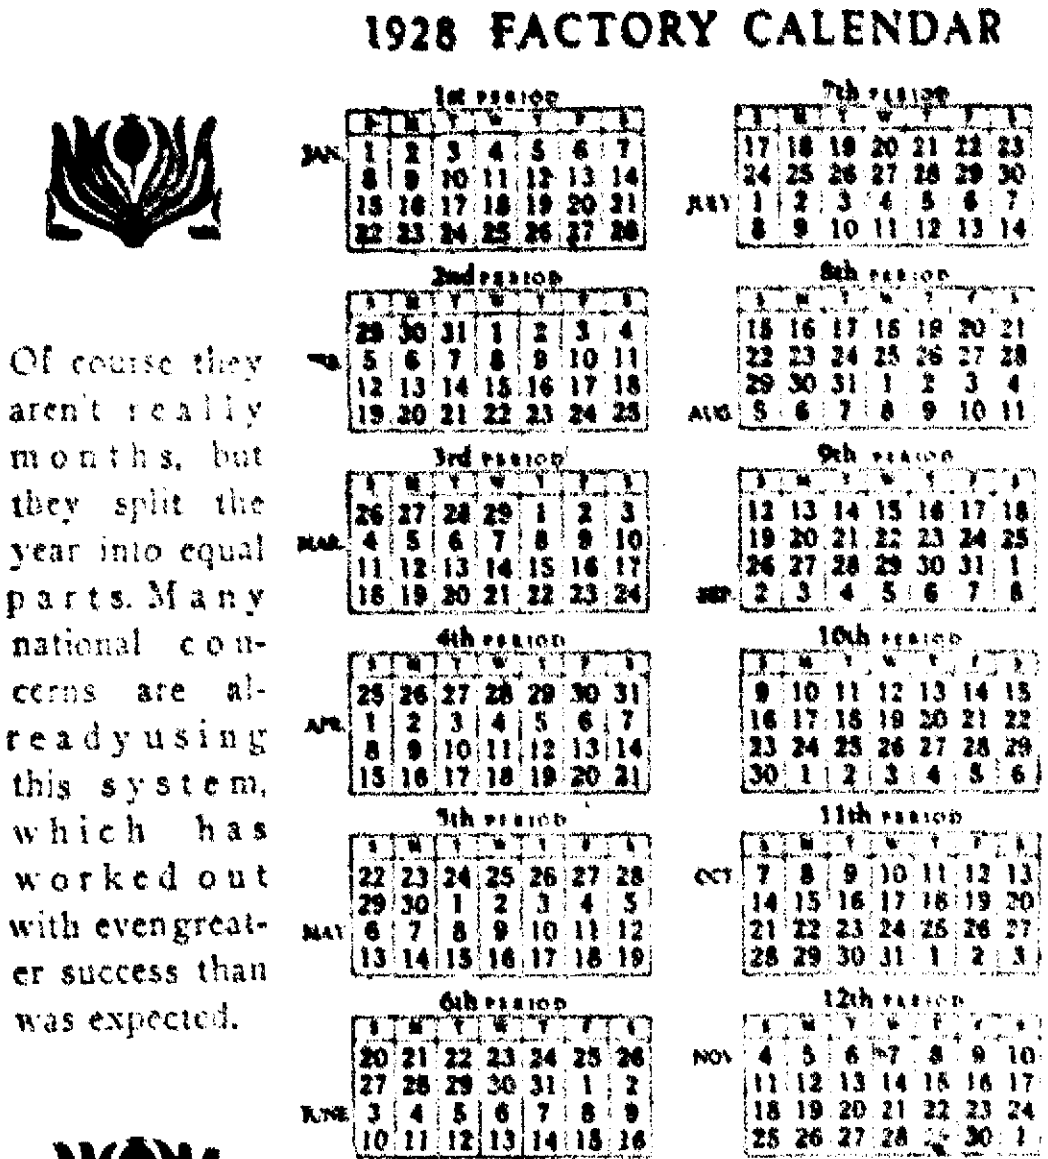

From a military standpoint, the Los Angeles could have made the trip loaded with huge bombs, instead of with ballast, bombed Cuba from the air and then landed safely at Panama under the shelter of American airplanes and anti-aircraft defenses. It was pointed out that the present army "blimps" could not have made the trip, through lack of fuel-carrying capacity, and couldn't have made even shorter trips, through inability to carry heavy bombs. The same shortcomings, it was added, would apply to airplanes on a 2,000-mile flight.

# Red And Black Cagers Have Hard Schedule In Tourney

## HARDING IS FAVORED TO DEFEAT AQUINAS IN OPENING CONTEST

Local Cagers Must Defeat Columbus South in Second Round Saturday

BY KARI H. MEYER  
Sports Editor

Harding High School basketball team will have a hard row to hoe in the district basketball tournament which opens at Delaware Friday.

Although favored to defeat Aquinas High of Columbus in their first game of the tourney, the local cagers will find the downstate team plenty strong. This contest will be played Friday night at 8:15 o'clock.

In case Harding wins this game, the local team will meet the best team of the district in the second round. If Harding can upset the dope and defeat Columbus Saturday afternoon at 4:15 o'clock there is a big chance of the Marion school being represented at the state tournament.

Like last year, Harding will be the dark horse of the Class A meet. The Red and Black cagers have shown exceptional strength during the season, losing the N. C. O. League championship by two games but by one point margin.

Those in touch with state high school athletics point to Columbus South as the sure winner of the Delaware tournament. South was given a bye in the first round and will play its first game against the winner of the Harding-Aquinas fray.

One of the hardest series of practice sessions is being tapered off by Coach Condon who has been training his cagers in Star Auditorium. The team is in good form and is speeding up quite a bit on offensive playing.

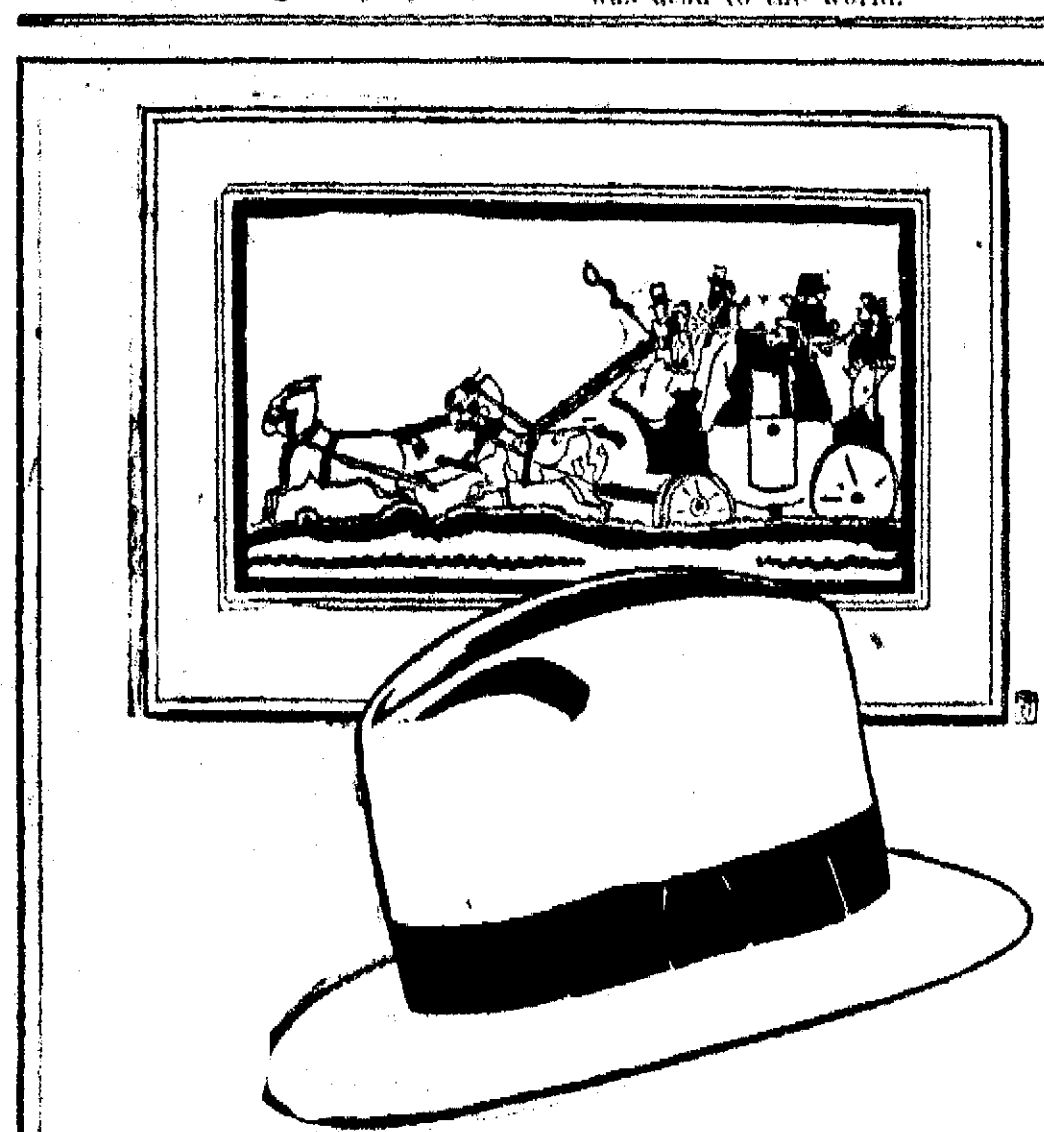

Learn to dance, learn to dine fashionably, learn to wear evening clothes, learn to carry on small talk in society. What is the use of the useless idea of permitting one's self to be handicapped in getting on in the world?

Smart!

There's "dash" in a neat and gleaming head of hair! Apply a little "Hair-Groom" in the morning and your hair, straight or wavy, is "set" for the day—neat and lustrous. "Hair-Groom" is a grooming and refined in odor. The most fastidious people use it. Be sure you ask for "Hair-Groom". It's "different". At all drug stores.

## Pacific Fighting Lawyer Seeks Heavyweight Title

San Francisco, Feb. 29.—The Pacific Coast is now looking around Emanuel, San Francisco's fighting lawyer, to win the heavyweight championship of the world.

Emanuel, heavyweight champion of the Pacific Coast, is declared by some of the older inhabitants to be the cleverest and best candidate for the title since James J. Corbett. Emanuel showed in that fight that he has a pretty fair kick of right hand.

Of course Emanuel is getting for Gene Tunney's championship, but for the next two years it will probably not be more than a still hunt. But if it should happen that in two years from now the San Francisco lawyer meets Gentleman Gene for the championship it will mark the meeting of the all-time theoretical principle. (Come any one a lot of big words, but Emanuel will know everything that he is talking about.)

Armand is probably the best boxer in the country today. Emanuel weighs 178 pounds. He needs 10 pounds more. Dempsey was a whizz at 185. It was at that poundage he brought the ruins tumbling about Jess Willard's head.

The Pacific Coast has developed many fine hitters, and Armand, until quite recently, had looked like anything but a slugger. His lightning left hand was enough for him to win handily, but the exhibitions were none too thrilling from the standpoint of most of the followers who pay real money to see the performance.

But Emanuel now satisfies Coast critics to the extent that they're willing to back him in the contender class in the East. Critics came to this conclusion after seeing him perform in a bout in Los Angeles in which he proved two important things: He can take it; He can hit.

It was in a fight with a young and strong fellow named Vito. Donnan that Emanuel proved that he belongs. This Vito person took a great liberty with our Armand, not only accomplishing something that very few have accomplished, hitting Emanuel, but he deposited him on the floor, something that had never been done. It looked pretty bad for the Pacific Coast pride. But only for a few seconds. Emanuel got up before anything like 14 seconds had passed, stepped into Vito and knocked him out. It was a home run. Vito was dead to the world.

This is the second of a series of articles by Frank G. Menke which reveal the inner workings of the bookmaking game and which are intended to show players why it is impossible for constant gamblers to beat the races. The third article of this series will appear in this column tomorrow. (Editor's Note.)

The "handbook" man knows few happier moments than when one of his players makes a play on a "hot" horse at a pari-mutuel track. For this comes the chance for him to reap a possible fortune for himself by use of the player's money—and without the risk of a dollar of his own.

In explanation: Many years ago, when the pari-mutuel wagering system first was installed in this country, the machines were so arranged that there were only ten slots or tickets, meaning room for betting on only ten horses. Inasmuch as more than ten horses generally run in a race, something had to be done—and was done—to meet the perplexing problem.

As a result, in all races where more than ten horses are entered, the track hand-capper arranges the horses in the order in which he thinks they will finish. A separate slot is appropriated for tickets on each of the first nine horses. The tenth and final slot, is called the "field slot" and represents all the other horses running in the race.

Must Be Actual Winner  
This means that all horses beyond the first nine are grouped together in the "field." Individual tickets are not sold at the track on any of those horses. If a player at the track wants to bet on a horse that happens to be in the "field" he is sold a "field" ticket. If the horse he fancies should win, or if any other "field" horse wins, the player cashes his bet.

But the cunning "handbook" man forces his player to observe a rule which is an absolute contradiction of the law at the track.

"The horse you specify must be the actual winner; otherwise your bet is lost. I will not pay off if a companion field horse wins."

Why don't the players revolt—why do they not insist that the "handbook" man adhere to the rules of the race track? Well, because the men who play in the "handbooks" are "suckers" by inheritance and development, and that "suckers" ever are a divided legion of fools while the "handbook" men are a united group of shrewd persons who makes rules of benefit only to themselves.

Whenever the "suckers" make a play with a "handbook" man, on a "field horse," the latter promptly wires his agent at the track and instructs him to make the bet in the machines ON THE FIELD. After which, one of three things happens:

(1) If none of the field horses win, the bet is lost—with the "sucker" the only loser, inasmuch as the money the "handbook" man bet originally was the "sucker's" money.

(2) If the "field horse" which the "sucker" specified wins, the "handbook" man's agent collects the winnings at the track and the next day the "sucker" is paid off with that money and the "handbook" man breaks even.

(3) But, if the specified horse loses, and one of his field companions wins—that's simply gorgeous for the "handbook" man. For, according to his rules, the "sucker" has lost his bet—but the "handbook" man is winner, inasmuch as his agent cashes the winning ticket on the "field."

No better illustration of how this rule works out ever was presented than in the running of the Kentucky Derby of several years ago, which was won by Flying Ebony. The track hand-capper didn't think much of Flying Ebony's chances and tossed him into the "field" with about five other horses which included a galloper named Prince of Bourbon.

In the teeming parlor of Gotham, there was a man who thought Prince of Bourbon was a good bet. He had planned to go to Louisville for Derby Day and bet \$500 win and \$500 place on the Prince. Had he been there, his bet would have gone on the "field" and because Flying Ebony, a "fielder" won, he would have cashed his bet.

If money serves me correctly, the "field" paid about 3½ to 1 to win and about 1½ to 1 for place. That meant that if the player had bet at the track, he would have won a total of \$2,500.

He made exactly the same wager away from the track with a "handbook" man in New York and, therefore, instead of winning \$2,500 he LOST his \$1,000. For, when betting in the

## PHILADELPHIA TEAM SEEKS MORE MONEY AS RESULT OF DEAL

Speaker Given as Cause of All Trouble Among Athletic Players

New York, Feb. 29.—The Philadelphia Athletics, under management of the late John G. Taylor, who has been in the city for the last 12 years, are in a state of financial distress.

It was quite simple. He had no money on the track and had a lot of money in the field. \$500,000 was \$500,000. When Flying Ebony won, of course, he lost the \$2,500 winning bet, but he collected the \$1,000 and kept all of the \$3,500.

"There day," the man was highly prosperous for me. I won more than \$25,000 without losing a dollar of my own or taking the chance of losing a single dollar.

"The Kentucky Derby always is a big betting race. For years I have only \$5, \$10, \$25 or \$50 on the race every day. I took in heavy bets on all the horses in the race. I would give a dollar of it to my man in Louisville, and he had him bet in the machines exactly as it has been bet with me by my players.

"No matter what happened in the race, I couldn't lose—and if a 'hot horse' won I was in to make a killing. As I remember it, the play given to me on the various 'field' horses, tallied about \$2,000 to win, \$1,000 place and \$500,000 to show. My man shot the whole works into the machines, playing it on the 'field.' When Flying Ebony won, all the 'field' tickets my man had were collectable. I think he got back around \$31,000.

"Naturally, the only bets on the 'field' horses that I had to pay off were those on Flying Ebony. I paid off about \$2,000 to the Flying Ebony players and the difference of about \$25,000 went into the rainy day fund for my little self."

## BECKLEY IS LEADING SCORER FOR AGOSTA DURING CAGE SEASON

Marion County Team Ends Season with Nine Wins and Three Defeats

Agosta, Feb. 29.—A survey of the results of the Agosta High School basketball season shows that the local school has enjoyed the most successful year in the annals of the school.

Under the direction of Coach W. K. Denton, former Ohio Wesleyan athlete, Agosta scored wins in nine out of the 12 scheduled games played. It was the policy this year to use as many boys as possible in each game, and in some games practically every boy in school took part.

During the year the team scored 331 points while their opponents were held to 239 points. The high spot in the season for Agosta was recorded in the game with Delaware, when the local squad won over the class A team by the score of 29 to 28. Agosta also defeated Prospect 20 to 10, the first win by a local team over the Prospect school in five years.

Rush was elected honorary captain at the close of the season. Rush plays at guard position, and had been voted the most popular high school player in Marion County earlier in the year by Star readers. The following were the players who played: Captain Rush, Beckley, Chapman, Tron, Baird, Kusler, Gracely, and Manager Davidson. Hook is to receive an A. A. A.

Scoring for the season follows:

Player	FT.	E.G.	T.P.
Beckley	10	26	82
Rush	24	26	70
Chapman	3	32	67
Kannel	6	19	44

## Scientists Will Climb Down From Nobile Dirigible at North Pole to Make Tests

**L. LENINGRAD, Soviet Russia, Feb. 22.**—For the first time in history human beings will drop out of the skies upon the North Pole when Gen. Umberto Nobile of Italy makes his second polar dash in a dirigible, it was learned here today.

Three Russian scientists will make the trip with the Nobile expedition.

According to information received by the Russian Academy of Sciences, it is planned to bring the dirigible to a stop over the pole and cast out anchors upon the ice from an altitude of approximately 200 feet. Hope ladders will be lowered so that at least three of the scientists on board may descend to take soundings of the sea beneath the ice floe and make other observations. The scientists will spend about five hours "upon the pole" if possible.

Preparations for the flight are being pushed here by scientists who expect to accompany the expedition. It is understood that the expedition will be made up of 26 persons. The start will be made at the end of April or early in May when atmospheric conditions are most favorable.

The airship will be piloted from Italy to Gatchina Field, near

Leningrad, where favorable weather will be awaited for the dash to Kings Bay, Spitzbergen, and to the North Pole. It is understood that Alaska will be the ultimate destination.

General Nobile piloted the S. 12 on the Amundsen-Ellsworth polar flight two years ago.

The ice-breaking ship, City of

Milano, which will act as a Mobile base for the dirigible, will sail from an Italian port for Kings Bay about April 1.
